Stainless Steel Hygiene Equipment
2013

www.hygiene-works.com
Hygiene Works was created as a result of over 50 years of manufacturing and design experience in food processing solutions.

We offer products and bespoke systems for personal hygiene applications. Our extensive knowledge in food processing, safety and hygiene allows us to create innovative turnkey solutions for personal hygiene.

With our group companies we have a unique offering with in-house design, engineering, manufacturing, automation, software, installation and service under one roof, making us the “one-stop shop solution partner of choice” for hundreds of food processing plants.

We develop stainless steel hygiene solutions in accordance with HACCP, IFS and BRC guidelines.

We are focused on becoming the partner of choice for hygiene and processing solutions within food industry.
PRODUCTS:

Guided Hygiene Stations
- Turnstile Hand Disinfection - p 4
- Entry Control Hygiene Stations - p 5-8
- Boot & Sole Cleaners and Dryers - p 9

Hygiene Equipment
- Dispensers for Disposables - p 10
- Changing Room Cabinets & Mats - p 11
- Washroom Accessories - p 12-14
- Sinks and Hand Wash Basins - p 15-16
- Knife Sterilisation - p 17

Other Equipment
- Mechanical Turnstiles - p 17
- Bespoke Stainless Steel Equipment - p 18-19
Hand sanitise with turnstile (wall mounted)

Product code : hsnt-1000-w
Dimensions : 850 x 500 x 740 mm

The hsnt-1000-w is an automatic dispenser unit with turnstile that reduces hygiene risks when entering production areas. When both hands are inserted into the recesses, sensors activate the top and bottom nozzles that spray disinfectant to both sides of the hand to ensuring complete coverage. After this, the turnstile is released and one can proceed. The snt1000w is to be mounted to the wall and is suitable for disinfectant (not suitable for gel type disinfectants). Stainless Steel 304 grade.

Benefits
- Reduces contamination risks
- Wall or floor mounting
- Adjustable two-sided chemical dosing from 4 nozzles
- Red and green led access lights
- Disinfectant dosing amount adjustable
- Can be connected to external devices such as card readers
- Turnstile entry direction is adjustable

Hand disinfection with turnstile (floor mounted)

Product code : hsnt-1000-f
Dimensions : 1000 x 500 x 1400 mm

- Combination unit with hand rail and hygienic mat for sole disinfection

Price: £ 2300

Price: £ 2600
**Entry Control Hygiene Station**

**Hand wash, sanitise and sole disinfection with turnstile**

The snt-1200 offer economical design with hand wash and disinfection before entering production areas. Consists of a grid base platform with knee operated sink, soap dispenser, paper towel dispenser and bin. This is followed by a 2-hand- disinfection unit and a turnstile with a hygienic mat for sole disinfection. The system grants access after hand disinfection has been accomplished. Stainless Steel 304 grade. Single unit suitable for 20-30 people/shift.

**Benefits**
- Reduces contamination risks
- All in one unit
- Red and green led access lights
- Economical design

**Price:** £ 4600  
**Product code:** snt-1200  
**Dimensions:** 1100 x 2000 x 1800 mm

**Twin hand wash, sanitise and sole disinfection with turnstile**

The snt-1200 -t offer economical design with twin hand wash and disinfection before entering production areas. Consists of a grid base platform with sensor operated sink and soap dispenser, manual paper towel dispenser and bin. This is followed by a 2-hand- disinfection unit and a turnstile with a hygienic mat for sole disinfection. The system grants access after hand disinfection has been accomplished. Stainless Steel 304 grade. Single unit suitable for 40-50 people/shift.

**Benefits**
- Reduces contamination risks
- All in one unit
- Red and green led access lights
- Economical design
- Increased entry rate

**Price:** £ 6500  
**Product code:** snt-1200-t  
**Dimensions:** 1250 x 2800 x 1800 mm
**Entry Control Hygiene Station**

*Hand soap, wash, dry and sanitise with turnstile (wall mounted)*

The snt-1100-w offer the optimal hand hygiene with turnstile before entering production areas. Consists of sensor activated hand washing channel with integrated automatic soap dispenser operating in sequence. A sensor activated high speed hand dryer is integrated in the casing followed by a 2-hand-disinfection unit and a turnstile that grants access after all of the above steps have been accomplished. Stainless Steel 304 grade. Single unit suitable for 20-30 people/shift.

**Benefits**
- All in one hand hygiene
- Wall or floor mounting
- Paper free
- Red and green led access lights
- Integrated hand wash and soap dispensing.

*Product code: snt-1100-w  
Dimensions: 1000 x 1250 x 800 mm*

* floor mounted unit + £300 (snt-1100-f) comes with hand rail and hygienic mat for sole disinfection

**Sole clean, disinfection and hand sanitise with turnstile**

The snt-1210 offer the optimal cleaning of shoe soles and hand sanitation before entering production area. Consists of sensor activated two horizontal brushes with safety grid cover offering fast, efficient sole cleaning. Brush rotation speed and auto cleanser spray nozzles for the brushes are adjustable. This is followed by a 2-hand-disinfection unit with a hygienic floor mat used with disinfectant and a turnstile that only grants access after all of the above steps have been accomplished. Stainless Steel 304 grade. Single unit suitable for 50-60 people/shift.

**Benefits**
- Combo unit - sole clean and hand hygiene
- Can be connected to external devices such as card readers
- Turnstile entry direction is adjustable
- Red and green led access lights

*Product code: snt-1210  
Dimensions: 1100 x 2000 x 1800 mm*

Price: £3300
